SFO Notification Changes

- ↑ RMA Options per each unit
- ↑ RMA Options are per HUC-10
 - ↑ Minimum Option per stream type

Riparian Management Area (RMA) Practice Option

There is limited availability for Minimum Option in your watershed. Please contact your forester to discuss RMA options.

- **Mill Creek** Fish Capacity Available, Non-Fish Capacity Available
- **Rickreall Creek-Willamette River** Fish Capacity Not Available, Non-Fish Capacity Not Available

RMA Practice Option

- ☐ Not applicable/not harvesting in or near an RMA
- ☐ Standard Practice
- ☐ Standard Practice with Forest Conservation Tax Credit (OAR 629-607-0400 through 0800)
- ☐ Small Forestland Owner Minimum Option (OAR 629-643-0140)
- ☒ Options exclusively available for significantly disproportionately impacted parcels. This is not common. Checking this box means that I will submit a Forest Management Plan demonstrating the parcel qualifies as significantly disproportionately impacted
- ☒ Standard Practice with Forest Conservation Tax Credit at 125% of stumpage value
- Note: To be eligible for the increased tax credit value, the SFO must have a federal adjusted gross income of not more than 125 percent of the Oregon median household income, as averaged over the three previous tax years.
- ☐ SFO Minimum Option with exemption from watershed cap (OAR 629-607-0100)

Oregon Department of Forestry (ODF) records indicate that you submitted a notification of operations (NOAP) in FERNs (Forest Activity Electronic Reporting and Notification System). At least one activity in this NOAP is a harvest where the minimum option for the riparian management area (RMA) was selected. The activity completion report for a minimum option RMA harvest is required to be submitted 90 days following the completion of the harvest. All other activities must be reported on or before December 31st, the year the NOAP was submitted unless a continuation has been issued by ODF. Each activity should be reported as 'did not operate' or 'complete' in FERNs on the Summary page of the NOAP. The linear feet harvested along the RMA using the minimum option is also required to be entered in the harvest activities completion report.

If you need help or have questions regarding activity completion reporting in FERNs, please contact the Stewardship Forester and/or Small Forest Landowner Forester listed on your Notification or your local ODF Office.

ODF Changes

- 🌲 Reassign Forester's
- 🌲 Edit attached document tags
- 🌲 Edit Completion for notifier – change back to Open
