

Oregon Department of Forestry Certified Burn Manager Training Provider Application

Please **download** the application to your computer, answer all questions, and then select the "Submit" button below or email this form to: stacy.mccarter@odf.oregon.gov or print and mail to:
Oregon Department of Forestry, Stacy McCarter, 2600 State Street, Salem, OR 97310.

In 2021, Legislators passed Senate Bill 762, requiring the Oregon Department of Forestry (ODF) to develop a Certified Burn Manager (CBM) Program. The overall goal of this program is to reduce barriers to prescribed fire in Oregon by increasing available resources on non-federal ODF protected lands through a prescribed fire leadership training and certification program. When landowners within ODF protection districts use a certified burn manager and follow the required burn plan it protects both from civil liability. ODF is seeking training providers who have experience with the creation and delivery of wildland fire training to deliver content based upon a detailed CBM instructor guide and final exam provided by ODF.

Training Provider Name:

Address:

Email:

Phone:

1. How many years of experience do you have with the creation and delivery of adult educational content and in what setting?
2. Is there a particular audience you plan to engage with this training?
3. What other experience, skills or knowledge related to prescribed fire planning, implementation, regulation, and effectiveness monitoring; public health; wildland fire and emergency management; or other relevant experiences do you bring?

Note: You must download the form first before you can use the submit button.

THANK YOU!
