

Oregon Performance Plan Data Specification Sheet

Oregon Performance Plan #24

Performance Plan Section: Oregon State Hospital

Performance Plan Term: At the end of year one (June 30, 2017), OSH will discharge 90% of individuals within 120 days of admission.

Definition: “Discharge Planning” means a process that begins upon admission to the Oregon State Hospital and that is based on the presumption that with sufficient supports and services, all individuals can live in an integrated community setting. Discharge planning is developed and implemented through a person-centered planning process in which the individual has a primary role and is based on principles of self-determination. Discharge planning teams at OSH include a representative of a community mental health provider from the county where the individual is likely to transition. (Oregon Performance Plan)

“Civil Patient” is defined as any OSH patient under the following legal status at the time of discharge:

- Civil Commitment (ORS 426.130); or
- Civil Commitment-Revocation of Trial Visit (ORS 426.275).

Description of Data:

- **Metrics:**
 - Number of individuals discharged w/in 120 days of admission.
 - Number of individuals discharged.
 - Percent of individuals discharged w/in 120 days of admission.
- **Numerator:** Number of patients on a civil commitment included in the denominator whose number of days between admission and discharge is 120 days or less.
- **Denominator:** Number of patients on a civil commitment discharged.

- **Other / Description of Data Points:**

- The percentage is the numerator divided by the denominator.
