

OREGON DEPARTMENT OF ENVIRONMENTAL QUALITY

Heat Smart Program

UNCERTIFIED WOODSTOVE DISPOSAL SITES

(Note: There are no required “DEQ-approved” disposal facilities; this is just a general list of potential places to dispose of your stove)

The following are potential places where you can drop off your woodstove for destruction. The list is not exhaustive but provides a general guide for where you can take your stove. Don’t forget to get a receipt, as you will need it when filling out the online notification form to DEQ.

Please remember that it is illegal to sell, offer to sell, or give away an uncertified woodstove or insert.

Be sure to call ahead or check online to verify the hours of operation.

Scrap Metal Recyclers (Will oftentimes pay for the value of scrap metal)
