

Fact Sheet

Asbestos Fee Increase

On Sept. 10, 2024, DEQ adopted a 3% fee increase for the Asbestos program as authorized under ORS 468A.345(3) and 468A.750(4). The fee increase allows the Asbestos program to maintain current service levels, operating in a way that protects the public and worker health by providing technical assistance, collaborating with local, state, and federal agencies, conducting abatement project inspections, and investigating and addressing violations that endanger public health.

Costs to operate Oregon's Asbestos program have increased over the last two years due to inflation. This requires the 3% funding increase to continue to provide essential program services. State law authorizes DEQ to increase fees according to the annual change in the costs to implement the program, or by three percent, whichever is lower.
